a role for vitamin a in living organisms has been known throughout human history in the last 100 years the biochemical nature of vitamin a and its active derivative retinoic acid its physiological impact on growth processes and the essential details of its mechanism of action have been revealed by investigations carried out by researchers using vertebrate and more recently invertebrate models to study a multiplicity of processes and conditions encompassing embryogenesis postnatal development to old age a wealth of intercellular interactions intracellular signaling systems and molecular mechanisms have been described and the overall conclusion is that retinoic acid is essential for life this book series with chapters authored by experts in every aspect of this complex field unifies the knowledge base and mechanisms currently known in detailed engaging well illustrated focused chapters that synthesize information for each specific area in view of the recent explosion in this field it is timely to publish a contemporary comprehensive book series recapitulating the most exciting developments in the field and covering fundamental research in molecular mechanisms of vitamin a action its role in physiology development and continued well being and the potential of vitamin a derivatives and synthetic mimetics to serve as therapeutic treatments for cancers and other debilitating human diseases volume i here we present the first volume of a multi volume series on retinoic acid signaling that will cover all aspects of this broad and diverse field one aim of volume i is to present a compilation of topics related to the biochemistry of nuclear retinoic acid receptors from their architecture when bound to dna and associated with their coregulators to their ability to regulate target gene transcription a second aim is to provide insight into recent advances that have been made in identifying novel targets and non genomic effects of retinoic acid volume i is

divided into ten chapters contributed by prominent experts in their respective fields each chapter starts with the history of the area of research then the key findings that contributed to development of the field are described followed by a detailed look at key findings and progress that are being made in current ongoing research each chapter is concluded with a discussion of the relevance of the research and a perspective on missing pieces and lingering gaps that the author recommends will be important in defining future directions in vitamin a research

malaya 16th june 1948 early in the morning 3 murders of rubber planters took place all within the area of taiping perak north malaya the names of the planters were mr arthur walker manager of the elphin rubber estate and mr j m allison along with mr i d christian of the phin soon rubber estate the two gangs of murderers all chinese were members of the malaya communist party under the then party chairman chin peng chin peng had been trained and fought alongside the british special operations executive force 136 during the japanese occupation of malaya from 1942 until 1945 chin peng s objective was to create a communist dictatorship in malaya after the cessation of hostilities then take over from the british government in malaya the malaya communist party began to cause unrest creating strikes and acts of murder amongst the law abiding malayan people whose population was mainly of chinese origin in february 1947 under a treaty arranged by the british government the federated and unfederated states of malaya became one much against the malayan communist party s wishes retaliating they creating more havoc and unrest amongst the civilians until finally decided to take up arms against the british government the murders of the three planters had the british high commissioner sir edward gent forced to take action initiated a state of emergency in perak quickly followed throughout other states chin peng declared war against the british subsequently the atrocities spread throughout malaya the civil police were unable to control the speeding violence and mayhem necessitating the existing british and gurkha troops to take control nevertheless the communist had taken their fight into the jungles of malaya where for the next 12 years a bloody war took place it was called the emergency by the british government due to the possible insurance claims from both the rubber plantation and tin mines owners it cost the lives of 1 818 commonwealth forces 1

026 federation of malaya police over the following 12 years it is estimated that in excess of 22 000 lost their lives consisting of commonwealth forces of the three service s federation of malaya police civilians including the chinese communist terrorist chin peng survived escaped with the remains of his beaten army numbering less than 400 across the malay border into thailand to remain an exile
